

## HYGIENE-INSTITUT DES RUHRGEBIETS

### ENVIRONMENTAL HYGIENE AND TOXICOLOGY SINCE 1902

**We are the Hygiene-Institut des Ruhrgebiets – Institute for Environmental Hygiene and Toxicology**

In the heart of the Ruhr area and active worldwide - with its ideal combination of experience, expertise, and independence, the Hygiene-Institut is one of the largest and most modern institutions of its kind in Europe.

**Partner with Us: Accredited Environmental Analytics & Expert Support for Research Consortia**

#### What We Offer

We provide a broad range of accredited environmental and bioanalytical testing and services to research institutions, environmental agencies, and industrial partners. Our team of Experts are experienced in both national and international standards, delivering high-quality data, regulatory insights, and adaptive technical expertise.

- Fully accredited lab analytics.
- Expertise aligned with German, EU & global norms
- Flexible support tailored to specific project requirements
- Participation in biological & analytical ring tests
- Development of Innovative, future-ready test methods.

## HYGIENE-INSTITUT DES RUHRGEBIETS

### Strategic SME Role in Research and Innovation

We're poised to act as a SME partner in collaborative research projects and funding tenders that aim to shape the future of environmental analytical and bioanalytical testing.

Our Expertise Includes:

- Development and validation of advanced analytical and bioanalytical methods
- Support for regulatory transition projects and policy-driven innovations
- Participation in collaborative ring tests and biological-analytical schematics

Project partners with current funding from Hyg's supporting organization, the Verein des Hygiene-Instituts des Ruhrgebiets e.V.

UNIVERSITY

**IWW**   
Wasserforschung

**GENAWIF**

### Why Collaborate With Us?

- SMEs with cross-sectoral expertise in environmental chemistry, toxicology, biological and chemical analytics.
- Proactive contributors to international research consortia, standards development, and policy-driven research

### We're Actively Seeking Partnerships

We welcome collaborations within German, European and International research consortia. We're eager to partner with academic institutions, public bodies, and industry stakeholders to shape the future of environmental safety.

Constortium HYG is involved in:
